

The (W)hole Point Institute, LLC

(W)hole Shop VII

In (W)hole Shop VII, participants explore the difference between “Meaning Living” and “Moment Living.” This is an advanced (W)hole Shop that builds upon the previous levels to deepen and enrich the understanding of our personal presence and consciousness.

In (W)hole Shop VII, participants explore the paradox of one-ness and two-ness over an intensive 2-day period. Students learn and practice additional tools for exploring this relationship in particular to themselves. In particular, students will:

- Learn about “Meaning Living” and “Moment Living”
- Learn about “wisdom seeds”
- Learn about portal points
- Learn about the “Rainbow Bridge”
- Learn about the “Continuum Portal”

In addition, students have many opportunities to work on their own life “holes.” With experienced and knowledgeable teachers and assistants, students are supported in

- Identifying their precious portal point
- Identifying their unique karmic strands
- Discovering their continuum portal qualities
- Revealing their unique transparent presence

(W)hole Shop VII is an advanced level (W)hole Shop and cannot be taken without a student having first participated in the previous levels. Participation in this advanced program requires permission from Alaya Chadwick. Like (W)hole Shop I, (W)hole Shop VII uses a unique combination of visual imagery, toys, personal stories, lectures, and exercises to create an environment that feels safe and welcoming and one that encourages curiosity as well as laughter.

(W)hole Shop VII is a powerful experience in “walking your own Wisdom WAY™.” This (W)hole Shop is not offered through a DVD instruction.
